

Certificate of Analysis & Origin

Fluisorb

TO WHOM IT MAY CONCERN

Fluisorb made of a mixture of dry and moistened **KALLE** Sponge Cloth consists of the following basic components:

**approx. 70% pure regenerated cellulose and
approx. 30% cotton fibres**

Moistend Fluisorb is made from dry sponge cloth humidified with an aqueous solution of $MgCl_2$ app. 18% and a biocide agent app. 0,1%

Additionally the used colours contain non migrating pigments (according to German BfR-Recommendations Part B II; § IX)¹

Fluisorb is fully biodegradable, environmentally compatible and will rot naturally

We hereby certify that the product is of German origin as it is produced and converted in Germany.

We certify that the **KALLE** Sponge Cloth does not contain any of the chemicals from the ECHA "Candidate List of Substances of Very High Concern for authorisation" dated 28.10.2008 and from the amendments dated 13.01.2010, 30.03.2010, 18.06.2010, 15.12.2010, 20.06.2011, 19.12.2011, 18.06.2012, 19.12.2012, 20.06.2013, 16.12.2013, 16.06.2014 and from 17.12.2014.
